

Play in a day

12.6.15

Full of excitement, class 4 performed a play in a day! It was tricky but we did it! We spent our whole day practising over and over again. But personally, I think it was worth it. All of the kids in our school were laughing their heads off. Practising all day, we just about nailed it. All day we felt nervous about it, right until the big performance. Fortunately, we all remembered all of our lines when we had to come up onto the stage.
