

Warm up

1. Count up in **steps of 10** from 77.

77
1 mark

2. Work out the missing numbers in these calculations.

44 + = 53 67 - = 50
1 mark

3. Fill in the blanks using < or >.

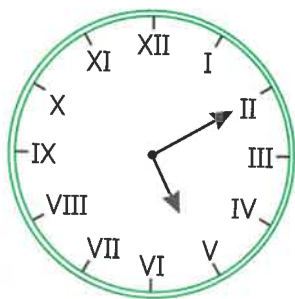

4 15 83 38
160 106 209 290
2 marks

4. Write the value of these Roman numerals.

III VI IX
.....
2 marks

What time in the morning does the clock show?

..... :
1 mark

5. There are two frogs in a pond.
Frog 1 had 408 tadpoles, but 201 swam away.
Frog 2 had 376 tadpoles, but 118 swam away.
Solve these subtractions to work out how many tadpoles each frog has left.

Frog 1:
$$\begin{array}{r} 408 \\ -201 \\ \hline \end{array}$$
 tadpoles
Frog 2:
$$\begin{array}{r} 376 \\ -118 \\ \hline \end{array}$$
 tadpoles
2 marks

6. Complete the following sequence.

500 600 900
1 mark

7. Three friends make £19 on Monday and £14 on Tuesday.
They split the money equally.
How much does each friend get?

£
2 marks
