Blue Group

Super work this week in maths Class 4! I am very proud of all of you.

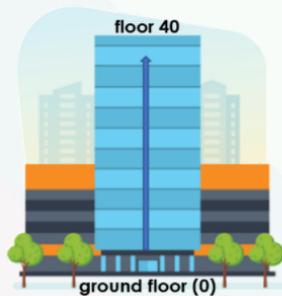

Please use the link below (or log in into Classroom Secrets) to access your Challenge for this week.

[Year 5 Negative Numbers Maths Challenge | Classroom Secrets Kids](#)

Year 5 Negative Numbers Maths Challenge

Try this Year 5 Negative Numbers Maths Challenge and put your knowledge of negative numbers to the ultimate test! How quickly can you solve the problems in this game?

This apartment block goes from floor -19 to floor 40. Charlotte is on floor -15 and needs to get to floor 2 to visit her friend. However, the lift is faulty and will only ascend or descend in multiples of 4 or 7.

If she ascends 28 floors, then descends 7 more floors and then descends a further floors, she will land at floor 2.

If she ascends floors, then descends 4 floors, she will land at floor 2.

If she descends 4 floors, then ascends 35 floors, she will be at floor . Then she can descend floors to land at floor 2.
