

## **Geography**

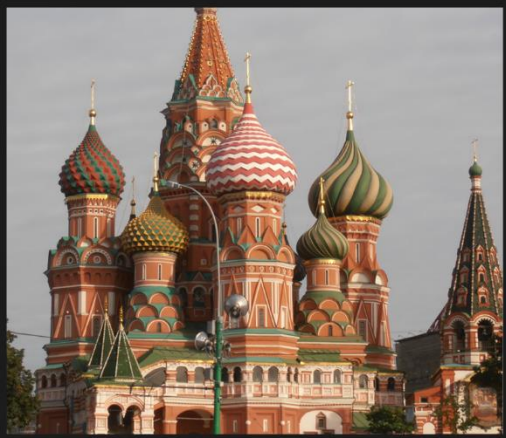

### **Europe Landmarks**

Today I would like you to read the information which has been uploaded to the website for today's lesson about famous landmarks in Europe.

I would then like you to cut out each card (Activity 1 – found in pack) you need to organise the cards into 6 packs – for each pack you need: an image, a landmark name, a fact and the location it can be found which you need to fill in yourself.

I have included a blank copy if you would like to research two natural landmarks and two human landmarks and complete each section of the cards – image, fact, location and name.

Location

Mount Olympus

In 79AD thousands of people were killed by the eruption, completely burying the nearby cities of Pompeii and Herculaneum.

Eiffel Tower

In Greek mythology Mount Olympus was the home of the gods and the throne of Zeus, the head god.

Mount Vesuvius

Every year thousands of people visit on the 21st June for the Summer Solstice.

## Location

Stonehenge

It is shaped like flames, though many of the towers look like colourful ice cream cones.

St. Basil's Cathedral

It is the countrys' most famous Mountain, where it easily recognised for it's triangular shape

Mount Matterhorn

Seven million tourists visited in 2013, making it the most paid visitor monument in the world.
