

Expert 2D Shape Drawing

I can draw 2D shapes using given dimensions and angles.

Use the given lengths to draw the 2D shapes:

1. Draw an equilateral triangle with sides of 4cm.

2. Draw a square with sides of 3cm.

3. Draw a rectangle with sides of 2cm and 4.5cm.

4. Draw an isosceles triangle with the short side measuring 1cm.

5. Draw a rhombus with sides measuring 2.5cm.

6. Draw a scalene triangle with one side measuring 2cm.
