Using Times Tables

1 Calculate:

3 × 6 = [ ]

8 × 8 = [ ]

5 × 7 = [ ]

9 × 3 = [ ]

2 marks

2 2 × 9 = 18.

Write down two other multiplication facts with the answer 18.

[ ]

1 mark

3 Ben has 12 tomato plants. He can fit 3 plants in one pot.

How many pots does he need?

[pots]

1 mark

4 Find the missing numbers.

[ ] ÷ 12 = 8

9 × [ ] = 81

2 marks

5 Mrs Smith has a bag of 56 sweets.
She shares them out equally between 7 children.

How many sweets do they get each?

[sweets]

1 mark

"I know my times tables up to 12 × 12 and can use them to multiply and divide."
