Geography

We have found out from the novel that Michael has visited Australia. Today I would like you to compare Australia to the UK (where Michael is from.) You can use the teaching slides on the school website to help you with ideas.

Things to consider:

- How does the climate differ?
- When does Australia have their summer and winter compared to the UK?
- What is the population in Australia compared to the UK?
- Can you name the famous landmarks in Australia and the UK?
- How are the houses different?
- Compare foods grown in Australia to the UK.

Challenge:

Michael has woken up on an island somewhere off the coast of Australia. Can you research the islands around Australia and name a few? What facts can you find out from these islands?
