Blue Group

Hi Class 4. Below is more work based on negative numbers. Please do your best and if you have any questions please just ask.

- 1) Mary is watching the weather forecast. In Iceland, it is -7°C and in Alaska, it is -17°C . Mary says it is warmer in Alaska than in Iceland because 17 is greater than 7. Why is Mary incorrect?

- 2) This alien recorded the temperature on their home planet at the same time every day for a week.

Day	Temperature
Monday	-13°C
Tuesday	-4°C
Wednesday	2°C
Thursday	-10°C
Friday	-5°C
Saturday	1°C
Sunday	-19°C

Are these statements true or false? Prove it!

- a) Saturday was 5°C warmer than Friday.
- b) Sunday was the coldest day.
- c) Tuesday was colder than Friday.
- d) If Wednesday had been 5°C colder, it would have been the same temperature as Tuesday.
