Hello Class 4!

I am so proud of the work you have completed so far. Well done! We are looking at ordering temperatures again today. As we are reading Kensuke's Kingdom, I thought I'd link today's work to our novel.

Michael is travelling around the world on the Peggy Sue. He has researched temperatures across the globe to help him prepare for his journey with his family.

1. Can you order the temperatures coolest to warmest?
2. Which is the warmest place?
3. Which place is the coolest?
4. Can you work out the difference between the coolest and warmest temperature?
