Watch the teaching video - White Rose Maths > Give change

[Spring Week 5 - Statistics | White Rose Maths](#)

Please finish the activity – Give change in your pack for today.

Challenge – I would like you to pretend that you have £100 to spend on Smyths online store.

You have to buy 3 items but when added together they have to be under £100 and have to be over £60. You must have some change from your order.

[Smyths Toys Superstores | Buy Toys for Kids](#)

What 3 items would you choose? I would like to know the price of each of them, your overall total and the change you will have left over.

Good Luck!
